SKILLS AND SERVICES
iOS App Development, Xcode, Objective-C, Swift, Github

Career Summary: I have been involved with the iOS community for over two years. Now I am 100% ready to make a career transition. Managing and being client focused in my previous career has given me confidence that I will be a competent developer for years to come.

EDUCATION
Udacity Online iOS Nanodegree (Summer 2015)
New York Institute Of Technology New York, NY (09/2004 – 05/2006)
      Completed a Bachelor's Degree in Computer Science (with honors)
      Minor – Finance
Borough Of Manhattan Community College New York, NY (09/2000-12/2002)
      Completed an Associated Degree in Computer Science (with honors)
Courses Taken: Database, Operating Systems, Compiler Design, Data Structures.

PROJECTS AND EXPERIENCES
Independent App Developer
      WhatPaint: http://www.appstore.com/whatpaint
            WhatPaint uses Core Data to store the user's Paint Project data. TFHpple third party library was used to parse paint codes into graphical colors.
      StayAerobic: http://www.appstore.com/stayaerobic
            StayAerobic was made free to the endurance community as a way to monitor and improve their aerobic workouts. iAd was used as an experimental feature.
      KneeFit: http://www.appstore.com/kneefit
            UICollectionView is used in the KneeFit App to show a graphical representation of exercises that the users will perform (Stretches and Strength exercises)

General Contractor, AP NYC (1997 - Present)
      Managed general renovations in New York City
